THE **INSPIRATION**[®] FIREPLACE INSERT

THE INSPIRATION® FIREPLACE INSERT

Inspiration® Fireplace Insert with Logs, Brick Finish and Regular Surround

OVERVIEW

- Gorgeous fire-viewing area with largest glass in its class.
- Built to fit in almost any fireplace.
- Trusted, safe and reliable radiant heat for your home.
- Outstanding flame pattern and realistic embers glowing underneath the logs, where they belong.
- Dress it up with the premium Stoll decorative fronts.
- Covered by the best warranty in the industry.

THE INSPIRATION® FIREPLACE INSERT

FEATURES

Radiant and Convection Heat

Radiant heat transfers warmth to objects, including the human body. It provides the bone warming feeling like sunlight on the beach, even though the air might be a little cooler. Convection heat transfers warmth to air, which will in turn satisfy the wall thermostat, but will keep objects, including the human body cooler. The Ambiance Inspiration® Insert offers you both technologies. Choose to operate without the fan and get an amazing radiant heater. Choose to operate it with the fan and you will be getting one of the most efficient inserts on the market today! Flexibility will serve you well!

No Electricity Required

The Ambiance Inspiration® insert performs very well if you find yourself without electricity. As one of the most efficient inserts on the market, it will keep you warm!

Remote

- BTU : 31,500 with 50% turn down
- EnerGuide Efficiency Rating : 71.4% NG and 72.3% LP
- Steady State Efficiency: 79% NG and 79% LP
- Clear view glass measuring 25 3/4" W x 16" H
- Providing 410 square inch of incredible flame experience
- Quiet ventilation system included
- Remote controlled Accent Lights included
