

FEDERAL TAX CREDIT QUALIFICATION CERTIFICATION OF EFFICIENCY

The following Ambiance models of Biomass-burning appliances are “Qualified Energy Property” (Wood or Pellet Stoves or Insert) covered under the Wood and Pellet Heater Investment Tax Credit (ITC), and therefore meet the federal >75% HHV Efficiency tax credit requirements per section 25 (D).

The data for this certification came from testing to CSA B415.1 method. Testing was performed on a representative sample by a third party EPA accredited laboratory. Consult with your tax advisor to claim the federal tax credit.
